## Personal Profile

**Full Name:** Hem Raj Rana

**Age:** 20

**Gender:** Male

**Languages:** Hindi, English, Nepalese, Japanese

**Hobbies:** Playing chess, reading, listening to jpop, learning new skills

## A little about myself -

When I was a kid, I started learning html and css through the process of trial and error (I wasn't aware of learning resources that time). It was fun. It was no more than a hobby till the last year of my college.

I started learning React JS and other web technologies in Nov, 2020. All stuff from online resources.

## Goals -

- ~~1. Learn React JS~~
- ~~2. Improve JavaScript skills~~
- ~~3. Learn to build better websites~~
4. Get internship/job as a frontend developer
5. Learn Data Structures and Algorithms
6. Improve problem solving
7. Learn backend technologies
